Synopsis

AIKNAVE was terminated and returned to Vilia  
RNDOLLAR is prepared to make the second attempt  
to contact AIPIGEON  
We have granted RNDOLLAR's request for AIRBERED  
to accompany him.

19 June

1. ☒ informed us that he had secured a job for AIKNAVE in Vilia from whence we picked him up. AIKNAVE was promptly delivered to ☒ for removal to Vilia. ☒ terminated this agent and his quitclaim was forwarded in SGAA 10711, 7 July 1954.

13 July

2. Per our request to ☒ ☒, RNDOLLAR arrived in Athens from Patras and was immediately taken to the Annapolis safehouse.

14 July

3. ☒ interviewed RNDOLLAR on the subject of a second attempt to contact AIPIGEON. RNDOLLAR reiterated his willingness to undertake this assignment during this month.

4. On the subject of going on the trip alone, RNDOLLAR remained adamant. He acknowledged the arguments which we again discussed with him but stated that a. he could never sleep without a watch and b. he needed the reassurance of a companion. We agreed to permit AIRBERED to accompany him on condition that RNDOLLAR make the approach to AIPIGEON's house alone. RNDOLLAR reluctantly agreed.

Comment:

6. Re para 3 a of SGAA 10430 KAPOK 2710, 30 June 1954, we believe it wiser to hold this method of mounting FRIDAY in abeyance for the time being in favor of an altogether different method. We are satisfied that the security of the team can be well maintained by trucking the two boys from Kiffissia to a camp site in the Previsa area during one day, sleeping, cooking in the truck the first night and delivering the team to the KYP about noon the following day at a rendezvous 30 Kms. south of Ioannina. This timing will permit the KYP truck to haul the team to (Identity 1) by 2030 in the evening. From there, an easy two hour walk will find the boys in (Identity 2) from where they may observe frontier activity the following day and infiltrate in the evening. Arrangements have been made with GADROON in Athens and AILMENT in Ioannina to execute this plan.

7. With reference to the last paragraph of conclusions to SGAA 10429 KAPOK 2663, 16 June 1954, we do not feel that the issue of AIRERED is significant enough to cancel the mission. Although AIRERED's utility is certainly limited, he is an experienced agent and has demonstrated his talent for stealth, caution and other aspects of clandestine work attendant to self-preservation. We believe he will justify himself if he provides RNDOLLAR with the confidence necessary to make a successful contact.
